

Awards Listed by Film (38 Awards)

Some categories had many films that qualified, so we awarded a second and third place. Of the possible 16 categories the judges rated from 1 to 10, some films were tied or within 1/10 of a point, so we gave the award to both. Some categories had few films that qualified, or the ratings weren't high enough to merit award, so there was no award. Our goal is to recognize all efforts that were well above average. If your film was accepted into the festival, you were a winner! These are just icing on the cake:

A Change of Song
